STEP BY STEP GUIDE

What you will need

1. Google Chrome Browser
2. Metamask extension for Chrome
3. Some funds to purchase Matic (Polygon) coins

If you already have MATIC, go to step 5.

Step 1

Install Google Chrome

If you don't have google Chrome, download and install it first via the button below.

[Download Chrome](#)

Step 2

Install Metamask

- Download the Metamask extension for Chrome:
[Metamask Download](#)
- Follow on-screen instructions to set up your account.

Safety Tip: Keep your Metamask seed phrase safe! It's your crypto wallet's key.

[Download Metamask](#)

Step 3

Switch to the Polygon Network on Metamask

- By default, Metamask is set to the Ethereum network.
- We need to add the Polygon (POS) network.
- See screenshots below

click on “expand view” under the 3-dots to get the same view as below

Go to network selection in the left top corner

Click on “Add network”

Click on “Add” next to “Polygon Mainnet”

Click on “Approve” to add the network

Now Switch to the Polygon network by clicking on the button

That’s it! Now on the left top corner you should see “Polygon Mainnet”

Step 4

Fund Your Metamask with Matic (Polygon)

- You'll need Matic coins to make transactions on the Polygon network.
 - Buy Matic from:
 - Moonpay
 - Ramp
 - Directly from the Metamask dashboard

!Important!

Make sure you're purchasing Matic/Polygon on the **Polygon blockchain**.

Note that this step might take several days to complete because of identity verification and processing times.

Moonpay

Ramp

Step 5

Buy DOP using Quickswap

- Visit the Quickswap website and navigate to "Swap"
- Connect your Metamask wallet (usually an option on the top right).
- Insert the DOP contract address (0x103965213122805C9aA63D8036Ed0ef692c19650) into the Quickswap interface.
- Confirm the swap.

Visit Quickswap and follow the screenshots below.

[Visit Quickswap](#)

Click on "Swap" to visit the exchange page

Connect your Metamask wallet

This screen should be displayed after you have connected successfully.

Setup the correct swap by changing USDC to DOP

Insert the DOP Contract address in the search bar and select DOP Contract address: 0x103965213122805C9aA63D8036Ed0ef692c19650

Enter the amount of MATIC you would like to swap for DOP

Click on the edit/pen to change some settings

Make sure to have the same configuration as seen above

Note every time you buy or sell D-Drops there is 6% tax taken on the transaction. If you're purchasing a high amount you might have to increase the slippage to 8,9,10% depending on your purchase amount.

Now that everything is setup, you can click on "Swap"

Click on "Confirm Swap"

Confirm the swap on Metamask

Congratulations! You've now successfully purchased DOP!

Step 6

Add DOP as a custom token to Metamask

To display DOP in your wallet you have to add it as a custom token in your wallet. You can do this by following the guide below and using the official contract address of DOP:

0x103965213122805C9aA63D8036Ed0ef692c19650
